Net Connections: how it is put together

net-connections is a small network utility with three checks, implemented in the single script main.py: it reports whether a hostname resolves, prints the IP address a hostname re.

sketched from the file

Net Connections: the run, step by step

If a step fails, the honest run says so and stops.

traced, not guessed, GK

Product map: what Net Connections is for

WHAT IT IS

net-connections is a small network utility with three checks, implemented in the single script main.py: it reports whether a hostname resolves, prints the IP address a hostname re.

WHAT GOES IN

The files at the top of the tree: main.py, README.md, banner.png.

WHAT COMES OUT

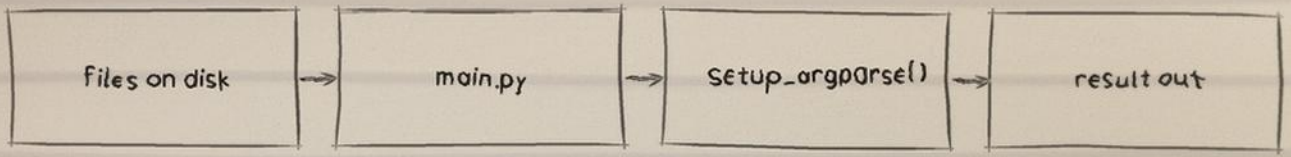

What the top files produce when they run or get read. Nothing else is promised.

WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.

mapped by hand, 

Net Connections: data flow, in one direction

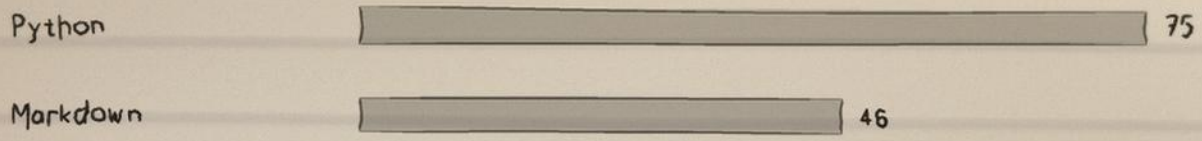

One direction. Anything the code does not do is not drawn.

second sheet, GK

Net Connections in numbers, counted 2026-10-30

Counted from the local snapshot of this repo. Method for every number: VISUAL.md.

5 files in the tree.
6 commits, first 2025-01-02, last 2026-10-30, from the local git log.
No test files by name in this snapshot.
